

# E911

This elegant and refined stove offers a good solution for heating and cooking.

Beige Sabbia

Blu Antico

Bianco Meringa

Bordeaux

## GENERAL TECHNICAL CHARACTERISTICS

### Heating by natural heat transfer

Radiant, conduction and natural convection

### Heating with Multifuoco System®

Optional four speed forced ventilation kit with remote control. Warm air ducting up to 10 m

### Structure

Steel body stove with door and grate in cast iron, firebox in Aluker®

### Combustion air kit

Optional system to optimise combustion and stove efficiency, taking in fresh air from outside the dwelling

### Majolica cladding

Unique large hand-made pieces

### Oven

Interior in stainless steel with grid and thermometer

### Air Glass System

Self-cleaning ventilated ceramic glass heat resistant up to 750°C

### Easy Cleaning

Maintenance couldn't be easier, removable ash drawer

### Safety devices

Self closing door. Steel handle with silicon sleeve

## TECHNICAL DRAWING

## TECHNICAL DATA

Room heating capacity (min-max)	m <sup>3</sup>	120 - 200
Nominal thermal efficiency	%	84,9
Rated heat output	kW	7,0
Consumption at rated heat output	Kg/h	2,2
Maximum heat output	kW	9,0
Maximum consumption		3,2
Dimensions WxDxH	cm	55 x 47 x 135
Cladding		maiolica
Front		maiolica
Firebox		acciaio
Primary and secondary air		regolabile
Air combustion kit		optional
Firebox		Aluker
Brazier		ghisa
Flue outlet Ø	cm	15 superiore
Ash drawer		estraibile
Door		ghisa
Ceramic glass		resistente a 750°C autopulente
Door handle		acciaio e impugnatura in materiale silconico
Wellness -umidifier in stainless steel		no
Oven in stainless steel (LxWxH)	cm	31 x 34 x 26,5
Multifuoco System®		optional
Front air vents-orientable		si - no

The availability of models may vary from Country to Country.
