

## QUBE 4

Fine hand-made majolica cladding with large panels for an appliance with a strong aesthetic impact

Bianco Antico

Rosso Lava

Giallo Acceso

Ardesia

Sahara

### GENERAL TECHNICAL CHARACTERISTICS

#### Natural heating distribution

Radiant, conduction and natural convection heating

#### Multifuoco System Plus

Optional forced ventilation kit with four electronic controlled power levels and LCD remote control. Warm air ducting up to 10 m

#### Multifuoco System®

Optional four speed forced ventilation kit with remote control. Warm air ducting up to 10 m

#### Tertiary air system

Optimizes combustion and ensures high efficiency with low emission into the atmosphere

#### Structure

Firebox and door in enamelled steel with grate in cast iron. Fire pit in Aluker®

#### Air Glass System

Self-cleaning ceramic glass resistant up to 750°C

#### Easy Cleaning

Quick and easy maintenance, removable ash drawer

#### Wide screen fire

Wide vision of the fire to provide the right atmosphere

#### Majolica cladding

Unique large hand-made pieces

### TECHNICAL DRAWING

### TECHNICAL DATA

Room heating capacity (min-max)	m <sup>3</sup>	150 - 260
Nominal thermal efficiency	%	80,5
Rated heat output	kW	9,0
Consumption at rated heat output	Kg/h	1,4
Maximum heat output	kW	9,5
Maximum consumption		1,6
Dimensions WxDxH	cm	59,5x47x1175
Cladding		majolica
Front		-
Firebox		enamelled steel
Primary and secondary air		adjustable
Tertiary air		predetermined and pre-heated
Air combustion kit		no
Firebox		Aluker®
Brazier		cast iron
Flue outlet Ø	cm	15 - top
Ash drawer		removable
Door		steel
Ceramic glass		self-cleaning resistant up to 750°C
Door handle		hide away and detachable
Wellness -umidifier in stainless steel		no
Oven in stainless steel (LxWxH)	cm	no
Multifuoco System®		optional. 4 levels
Multifuoco System Plus		optional. 4 levels speed
Front air vents-orientable		no
Forced Convection kit		no
Total weight	Kg	

The availability of models may vary from Country to Country.
